The Foreign News.

We give in another part of to-day's paper a full and careful compilation of the news brought by the Britannia. It is interesting and important to every individual in America.

The commercial intelligence is the most important, as affecting, particularly, the business of this country and the prosperity of our people. The weather in England had been more favorable, and it was joyously anticipated that the yield of grain would be a good one. It is true that the accounts of the crops from the continent of Europe are not so favorable, yet if England wants but little from abroad, the continent can very well manage to fill the mouths of the people till another harvest. We have only to think of a short crop in England and on the continent, in the same year, to imagine a scene of deeper distress and misery than has ever yet been mentioned in history. Starvation never reflects-a scarcity of bread leads to bloody riots or something

This news of sunshine on the other side of the Atlantic is very interesting to us apart from the benevolent feelings we have for the poor, already half-starved, laborers of England. It affects the operations in cotton; and where we lose in the sale of a few hundred barrels of flour at advanced prices, we gain in the disposal of thousands of bales of cotton, that would otherwise remain at home to depress the value of the whole. The intelligence is, therefore, doubly interesting to us; our feelings of charity and our desire for cash are both satisfied. It is to be seen that the cotton market in this city was immediately affected, and prices advanced three-eighths of a cent, with large sales. Our flour merchants, how. ever, are firm; they still have hope.

There is no political news of consequence, except it be that the annexation of Texas continued to absorb the attention of the rabid portion of the English press. England was quiet; Victoria was still amused on the continent; Ireland was in a state of abevance: the religious riots in Germany had spread the reformation over the continent; Spain was in trouble; and Europe, generally, appears to be in a state of transition.

NOVA SCOTIA AND NEW FOUNDLAND - We have received Halifax papers to the 17th, and Newfoundland to the 6th inst. The experimental squadron from England was expect-

ed at Halifax in about ten or twelve days. The following letter is from a correspondent of the

Intelligence has just been received here that there has

Intelligence has just been received here that there has been tremendous excitement at Yarmouth, at the Baptist education meeting. Mr. Burton (the Baptist minister there) was openly insulted, and the mane, tail, &c of the Attorney General's horse, shaved and cropped. The people, it is said, were outrageous at their political gatherings, under the mask of religion. I forgot to mention that the Attorney General was burnt in effigy.

The Dutch frigate Rhine, with Prince Henry on board, salled from Newfoundland on the 26th ult.

St. John's papers of the 5th inst. are filled with accounts of the reception there of Dr. Fleming, Bishop of Carpasia, Vicar Apostolic of Newfoundland, Labrador, and the Island of Anticosti, Vicar General of the Canadas, &c.—His Lordship had embarked in the Caledonia for Halifax, but falling in with a fishing boat off Newfoundland, he chartered her to take him to St. Johns. The inhabitants are delighted with the spostolic humility of his approach.

OUTRAGE ON THE COAST OF AFRICA.-We learn from Capt. Caraway, of the Margaret Ann, from Loando, (Africa,) which place he left on the 18th July that about the first of June the Henry, Capt. Schultz, of and from Salem, Mass., was boarded by boats from the Portuguese man-of-war Ralampazo, the officers of which demanded Captain Schultz's papers.

They then asked permission to go below and overhaul

the cargo, which Capt. S. refused to allow them. The Portuguese officers then called their boats' crews on board—the Captain of the Margaret Ann was seized and placed in charge of sentinels with fixed bayonets.—The Portuguese crew then took the long boat off the chooks, went below, and after searching the vessel allowed her to proceed.

Capt. Schultz also reports that the British man-of-war brig Cygnet, cruizing off the Carribean Islands, sends her boats into the harbor, lands her crew and allows them to rob the negroes of their fruit, monkies, parrots, &c., and commit eutrages on the female portion of the race. Portuguese officers then called their boats' crews on

PARK THEATRE.—Last evening Cinderella was per-formed for the third time. The promise of brilliant success which Miss Delcy gave on her first appearance has been fully realized, and at no time has she been received by a more fashionable audience than last night. She has entirely freed herself of that slight nervousness which was perceptible on her debut. Mr. Gardner was good as the Prince-Mr. Brough as Dandine Of all these performances we have spoken in detail before. Bowery THEATRE.-The play of the Iron Chest was

given last night to a house crov. ded to excess. Mr. Hamblin performed with his usual artistic skill, and was well supported. Last evening closed the week's performance on his part of some of the finest characters that Virginius, were all given by him in a style that the Bowery Theatre has not lately witnessed. Mr. Jackson has had leason to congratulate himself on this engagement, both money and fame have been acquired by him through it, and his reputation as a successful cateror for the public is firmly established. The after pieces last night were the amusing farce of Young England, and the drama of Nick of the Woods, both favorite pieces. Tomorrow night the performances will be for the benefit of Mr. Hamblin Massinger's tragedy of the Fatal Dowry, and the Honey Moon, will be presented, and in both of them Mr. Hamblin will take the leading characters.

CASTLE GARDEN.—To-night we have a Sacred Concert.
The warm weather that still hangs around us makes this a most delightful resort. In the garden you are at ses, on shore, and afloat, all at the same time. During the day they are open from sunrise, and as a Sunday resort, afford great inducements to visiters.

Dumpouron's Trouge.—If these gentry go on in the

way they have been doing lately, they will achieve that desideratum—a fortune. "Some men," says Shakspeare,
"are born to greatness—some have greatness thrust upon
them." In this case they were born to it, no doubt, for
they always have been from their first start, "great," and
always will be. To-morrow evening they commence
their second week with entirely fresh programmes.

City Intelligence. The Weather.—We were flattering ourselves a few days since with the gratifying idea of cool weather.—But it seems to be delayed unusually long. Yesterday was a very warm day, as warm as we have had this month. At 3 o'clock the mercury s'ood at 53 degrees. APPOINTMENT-Mr. H. P. Rowall has been appointed agent of the State Prison, at Sing Sing, in the place of Mr. Wm. H. Peck.

Mr. Wm. H. Peck.

RIOT ON THE FIVE POINTS.—A riot took place last night about 11 o'clock, in the vicinity of Orange and Cross streets, in which knives, brickbats, pistols, &c. were freely used. A man by the name of Thomas Neilis was severely cut in the breast, and is not expected to survive. Nine of the rioters were arrested and taken to the Tombs, three or four of whom are so badly wounded that their recovery is doubtful.

That December 1.

That Payement.—Is the payement at the corner of Wall and Nassau streets never going to be repaired? It is certainly one of the greatest nuisances in the city. It is a complete mud-slough, with large holes in the payement, into which it would be very unsafe to sink. Why do not the proper authorities attend to this matter?

TELEGRAPH Posts.—There has been just cause of com-plaint in regard to these unsightly posts which range up Broadway. One gentleman absolutely refused to have one placed before his house, thinking that it would not at all add to the ornamental appearance of the front. The directors of this enterprise ought certainly to have paid more regard to the taste of our citizens than to have put up such rough-hewn, knotty, scars-crow looking posts. By smoothing and painting they might be made quite ornamental.

Police Intelligence.

September 20—Mon Killed by his Wife.—Captain McGrath and officer Leonard, this evening arrested a woman named Bridget Carrol, changed with having caused the death of her husband, Patrick Carrol, by throwing a brickbat at his head, completely splitting the scull. The parties lived in Elizabeth street, between Prince and Houston streets, and were both under the influence of liquor at the time the occurrence took place.

Attempt to Pick a Pocket.—This afternoon, as a gentleman was on his way from the North River Bank to his place of business, with \$500 in funds, an attempt was made by a number of light-fingered gentry to pick his pocket; on one occasi.n knocking off his hat, in order to induce him to take his hand out of the pocket containing the desired treasure. They were closely watched by officers Bowyer, Jackson and Drinker, and as soon as one of them made a dash at the booty, he was seized and committed to prison.

Anti-Rent Trials.

Anti-Rent Trials.

[From Albany Argus, Sept. 19.]

DELHI, Sept. 17, 1845.—John Gregory, indicted for appearing disguised and armed at the Stewart sale, pleaded not guilty. T. H. Wheeler, is counsel for the prisoner. The case was put off to the next term of this count—the prisoner recognizing in the sum of \$3000 for his appearance.

ance.
Alexander Beckwith, indicted for the same offence
pleaded not guilty. S. Gordon, is counsel for the pri

Valentine Kettle pleaded guilty to the indictment for 25 Canton Co 25

The Court assigned A. Edgerton, as counsel for the prisoner—who pleaded not guilty to the indictment for appearing disguised, &c., and for conspiracy and attempt to rescue prisoners from the custody of the Sheriff.

Augustus Kittle pleaded not guilty to an indictment for appearing disguised, &c., and for conspiracy. Robert Parker is counsel for him. He pleaded guilty to the indictment for appearing disguised, &c., and combination to resist the execution of process.

The Grand Jury are now receiving testimony in regard to the circumstances connected with the Earle sale. A large number present at that sale as Indians, will be indicted for murder. Among other important facts bearing on this case, it is now notorious that previous to the arrival of Steele and Edgerton on the ground, a vote was taken by the Indians in the wood, as to what course they should pursue in the event of an attempt to make a sale—the result of which is seen in the melancholy affair of which Steele was the victim.

Many of those in confinement under the charge of participating in the murder of Steele, are emphatic in their condemnation of those who have been instrumental, by their inflammatory appeals, in bringing this trouble upon them.

[From Albany Atlas Sept. 19.]

upon them.

[From Albany Atlas, Sept. 19.]

DELHI, Wednesday evening. September 17.—Since mine of Monday evening last, four detachments of horse have gone out, and are yet out, making arrests and serving legal process. Other detachments that were then out have in this time returned, bringing in a few prisoners and various reports as to the state of feeling in the infected districts. Nothing has transpired in our county courts yesterday, or to-day; some argument of motions, arraignments in criminal cases, hearing the pleas, and the taking of recognizances of criminals and witnesses.

motions, arraignments in criminal cases, hearing the pleas, and the taking of recognizances of criminals and witnesses.

Yesterday, W. Bryant was arraigned on two indictments: one for disguising, &c., and for conspiracy; the other for kidnapping of Steele and Parker, in March last, and plead not guilty. Chancey P. Walrath, was arraigned for the same offence—saw the kidnapping—and plead not guilty.

Bryant was bailed to the next Oyer and Terminer, and so was James Barnhart, they, therefore, having leave and arraigned and plead.

The grand jury are still hard at work. They have found about 300 true bills of indictment and against over 100 persons; in a great number of cases, several bills being found against the same individuals.

These bills are mostly for disguising, &c., conspiracy, assault and battery, false imprisonment, kidnapping, robbing officers of their papers, attempts to rescue, &c. &c. One of the late principal reasons of the hostility of the Indians to our late lamented under-sheriff, and probably helped to bring about his deaft at their hands, was that a foul report had been circulated among them and spread over the whole infected district, and believed there generally, that Steele mis-used Squires and his family last winter, when he arrested that individual in the nightime in Roxbury. Before this arrest, the Indians had asserted that 1500 men could not take Squires from Roxbury. Steele did it with but three. This, too, galled them badly Squires is now in prison here awaiting his trial, or rather indictment, for later offences in these matters, and at this late hour has come out and made a public declaration in our home prints, denying the foul stories told of the abuse Steele gave him and his wife and family, and declaring that Steele was kind and gentle, as an officer, in all ways. We are glad to hear the truth out, even at this late hour, but also it can do no good to the unfortunate officer, about whom these lies were told, except to help to put to right some misguided minds, who from such fals the unfortunate officer, about whom these lies were told, except to help to put to right some misguided minds, who from such falsehood, have been induced to harbor a terrible hostilitytowards Steele in his life, and to attempt to defame his memory since death.

Health of Charleston.—Our city is in the enjoyment of unexampled health, for this or any other season. The deaths last week were only two whites and seven blacks. Our citizens who are assent, may now return, and that speedily, either for health, picasure or business.—Charleston Patriot Sept. 17.

Ethiopian Serenaders-Palmo's Opera Ethiopian Serenaders—Paimo's Opera House.—It will be seen by their advertisement, that Messrs. Germon, Harrington, Pelham, and the entire force of the Ethiopian Serenaders, will for this week continue their highly attractive concerts at Palmo's. No yen can do adequate justice to their individual and combined efforts. The public bare pronounced their decision, which cannot be reversed, and this week promises to be a season of unmixed delight and general amusement. They commence to-morrow evening, with ascries of those bewitching and artiess melodies, that have assembled at their call, all the wealth, beauty and fashion of the city.

MONEY MARKET.

Saturday, Sept. 20-6 P. M.
The speculative fever in the stock market still continues. Norwich and Worcester advanced 2} per cent.; Erie Railroad, }; Reading, 1; Morris Canal, 1; Farmers' Loan, j; Illinois, j; Long Island, 2j; Canton, 1]; Vicks boan, 2; inmost, 2; long island, 2; canon, 1; read-burg, 2; Harlem, 12; U.S. Bank, 2; Stonington and Ohio 6's closed firm at yesterday's prices. The sales were very large, and the tendency of prices is still upwards. By the arrival of the steam ship Britannia at Boston,

from Liverpool, we have advices from all parts of Europe, twelve days later than those received by the Great Western. In a commercial point of view, the news is very important and highly interesting. The favorable change in the weather, and the encouraging prospects for nearly an average harvest, have produced a very marked improvement in commercial affairs generally. The activity in the cotton market, and the firmness of prices for that staple, have been caused in a great measure by the improvement in the corn market. There will, notwithstanding the favorable change in the weather, be a deficiency in the harvests this year, which must be principally supplied from this side of the Atlantic. There are short harvests in Russia and Poland, and the supplies from the Baltic will be, therefore, limited. The bulk of the imports of breadstuffs into Great Britain, to make up the deficiency in this harvest, will be from Canada, and a demand will without doubt spring up at once along the western line, for wheat to ship to Canada for manufacture, that will have a very favorable effect upon prices. The deficiency in the crops of Great Britain will not be, according to our accounts, large enough to restrict the manufacturing or commercial ope-

rations of the kingdom.

The news per Britannia has had a very favorable effect upon the cotton market. Prices this morning advanced | to ? of a cent, and the sales were to extent. The corn market became unsettled under the advices, but no actual decline as yet been realized.

There had been very little done in American securi ties. Prices in the London market remained without al. teration. The favorable change in the money market, just previous to the departure of the steamer, must have produced an improvement in American stocks, as well as in all other securities.

The weekly returns of the Bank of England from July 12th to August 23d, exhibit a reduction in several of the departments. The diminished amount of bullion on and, shows the anxiety evinced up to that time in rela

Actualcirculation, £21,613,030 21,301,035 21,459,140 21,189,355 The amount of issues has been reduced since the 9th of August, £119,295, and the actual circulation £269,785
A decrease in the amount of bullion on hand, corresponding with the reduction in the amount of issues, has taken place. The deposites have been reduced more than seven hundred thousand pounds. The London Money market had been very much affected by the harvest prospect, but just previous to the departure of the steamer of the 4th inst., an improvement had taken place, in consequence of the favorable change in the weather, and securities generally had advanced. The railway speculation continued as excited as ever, and the most ruinous results were anticipated. Several large share bro-kers of Liverpool had failed, and it is supposed many more would soon follow suit. Returns have been made, showing the number of bills presented at the late session of Parliament for railways. It appears that the estimated expense of 52 railways was £43,339,325. The capi tal stock at £44,741,000, and the amount authorized to be borrowed £14,872,326.

At Middlebury, Vt., on the 3d inst., by the Rev. S. G. Coe, John Springer, of this city, to Sarah Houghton, daughter of Charles Bowen, of the former place.

On the 15th inst. Francis Barnes, Esq., of New Orleans, to Mrs. Scan Lacy, daughter of Robert Paterson, merchant, Buffalo, N. Y.

On Saturday morning, the 20th inst., in the 36th year of her age, ELLEN M., wife of George Lockwood, and daughter of Walter Burling.

The friends and relations of the family are respectfully invited to attend her funeral, from No. 17 Beach street, this (Sunday) afternoon, at 5 o'clock, without further invitation.

vitation.

On Saturday, the 20th inst., after a lingering illness, by years of age, Sameri B. R. Nichols, son of Charles Nichols.

COMMERCIAL.

COMMERCIAL.

Saturday, Sept. 20.

Corron—The news per Britannia being very favorable for holders of this staple, an active business was done early this morning; and an advance of one-quarter to three-eights of a cent per pound was realized, over the rates at which some parcels were offered. Considerable irregularity has existed in prices, and we, therefore, cannot arrange our quotations accurately at present—The sales are reported as upwards of 4000 bales, the largest portion of which was for export, and about 1300 bales of that was for the Liverpool market.

Floura—The market this morning was somewhat unsettled in consequence of the late news by the Britannia. The intelligence received has had a tendency to cripple the transactions. Prices current before the news from Europe came to hand, could not be obtained during the day; still there has been sales of Genesee at \$4 81, buyers offer \$4 75; but holders not disposed to submit to a decline, limited the transactions, and the market closed unsettled. We are in hopes that by Monday it will be more uniform. We are of the opinion, however, that the news is favorable, and will ere the week expires, cause an advance in our present quotations.

Foreign Markets.

Foreign Markets.

Mayaguez, Sept. 6.—I had the pleasure of writing to you on the 29th ult., per Mars Hill, since which nothing of interest has transpired. Prospects for the ensuing sugar crop are most flattering all through the Island, and should prices continue favorable, many of our planters in other districts, who suffered so severely the three past seasons from [drought, will] receive a welcome relief.

Passengers Arrived.

LATEST INTELLIGENCE BY THE MAILS.

An Old Prophecy Renewed—The Smithsonian Fund.—Mr J. R. Ingersoll, F. Markoe, and the National Institute—

The Object, the Amount, the Application, and the Diversion of this Fund Defined-The Tariff-Specifications

of the Extraordinary Expenditures of the Government, and other Extraordinary Causes Tending Against a Re-

WASHINGTON, Sept. 19, 1845.

and other Extraorationsy Causes Trading against a tecduction—Miscellanesus Rems, &c.

Robert Morris, of New York, is here, and sundry
other wise men of Gotham." It is charged upon them
that their object is an explosion of the Cabinet, begin
sing with Secretar the West, there is reason to apprehend some mischief from their machinations to the Cabinet and the organ.

The funds of the Smithsonian bequest, \$600,000 in
British gold, for the establishment of a National institution at Washington, for the Knowa, were some years
ago, or a large portion, of them, invested in Arkansasbonds, which have subsequently sold at the ruinous discount of 40 per cent, the loss, however, falling upon the
Treasury, and not upon this fund. A bill, reported by
Judge Tappan, but amendel, passastitution, proposed upon
a plan worthy of the object of the "liberal and enlightened donor, and of this nation had the age." It was arrosted int he house byvarious amendments, which, in our
opinion were no improvement upon the plan of the Lenato—

In bibrary, lacture-rooms, and a horitoworth you can
be an outer that the substantial of the substantial of the conof a noble phillanthropis remains in setus quo. We
now sae a movement on the part of Hon. Joseph R. Ingersoll to diver this fund and assimilate the Smithsonian
Institution with the National Institute of this city, of
which Mr. Francis Markos the substantial of the substantial

In the substantial of the American people, we
solemnly protest. There must be no corporation speculation about the Smithsonian Institution—National Institute, laudable as are its objects and its labors. The
Smithsonian bequest, independent of any extraneous
elements, should stand alone, an institution at Washington, erected from the interest of the fund, to the end doserver and the plan of the substantial of the plan of the Capital

Tusion of knowledge among men."

A New England Society is about to be formed in Washington, chiefly for the celebration of the Plymouth Rock Anniversary on its annual return.

Mr. Gadsby, (the former host at the house now occur, and the state of the control of the property of the control of the contro

pied by that excellent York landlord, Sam Coleman,) has opened that new and commodious holel on Third street and Pennsylvania Avenue, near the depot. It is neatly furnished and kept in good style.

Mr. H. E. Riell has returned from Bordentown. He heard not of the late melancholy event at his residence until his arrival. Mrs. Riell is much recovered, though still indisposed. He has kindly furnished us with a catalogue of Joseph Bonaparte's paintings, with the price and purchaser affixed to each, which we shall transmit you this avening. Respectfully announce to the citizens of New York, that from the IMMENSE SUCCESS

with which their Concerts have been attended, during the pas: week, they have been induced to remain another week, on which occasion will be opened

A NEW BUDGET

OF SONGS, GLEES, CHORUSES, CONUNDRUMS, &c. &c. &c.

For perticulars see programme.

The Doors open at 75—Concert to commence at 8.

Boxes and seats secured daily at the office, from 10 A.M. till
4 P. M. 821 lwrc purchaser and this evening.

purchaser affixed to each, which we shall transmit you this evening.

PHILADELPHIA, Sept. 20, 1845.

The Court of Quarter Sossions have been engaged yosterday and to-day, in the truel of seven young men charged with being engaged in the late firemen's riot. The court room has been crowded all the time on account of the interest manifested for the prisoners, and herculean exertions are made in their behalf. Wm. D. Kelly for the prosecution has ably conducted, the case against five of the best lawyers at our bar. He concluded a masterly speech at one o'clock in which he knocked all their arts and all their eloquence into the middle of next year, and it is scarcely possible that the prisoners can escape a conviction. Mr. K. is about the best prosecuting officer we have had for many years, and his sternness of purpose, iron will, and terrible energy in the administration of the law, against roters particularly, has filled law breakers, of all descriptions, with consternation, and, with the full co-operation of the Court of Quarter, Sessions, will. I think, succeed in effectually crushing the spirit of disorder which has so often disgraced our city, and threatened the very existence of social order. He is a young man of commanding abilities, a self-made man, and a brilliant career is before him.

The Episcopal community in this city and State, are in the midst of excitement, consequent upon preparations for the ordination of Bishop Potter in this diocess. The ceremony will take place on next Tuesday, and the faithful from all parts of the Union are arriving in town.

faithful from all parts of the Control town.

The whigs of Spring Garden and the Northern Liberties have decided not to take up tickets for District Commissioners. This will leave them free to support the native ticket, and is another fact which strengthens the belief that there are mutual arrangements, &c. We shall

The New and Splendid Oratorio of
The SEVEN SLEEPERS.

BY DR. G. LOEWE, a celebrated German Composer, will
be performed by the Sacred Music Society, on WEDNESDAY EVENING, 21th instant, at the Tabernacle, under the
direction of Mr. U. C. Hill, conductor to the Society, Mr. W.
H. Greatorex will, for the first time in this city, preside at the

native ticket, and is another fact which strengthens the belief that there are mutual arrangements, &c. We shall see.

I understand that a few of our citizens, who are determined to reform the world, and make it conform to their notions, are about to take up a free land ticket after the manner of the New York adtirenters. What they mean by such a ticket in this State I know not, for there are no tenures here at all analogous to the feudal holdings of Rensallearwick. It may be that they go against paying any rent whatever.

We have in this city at this time, T. M. Adams, Esq. of Oregon. He is a young man of great energy of character, and of winning manners. He has led several bands of emigrants to beyond the Rocky Mountains, is intimately acquainted with the whole of that country, and he is about to deliver a lecture to our citizens upon the subject. Peter A. Brown, Esq., the man who set the Oregon ball in motion in this quarter, has him in charge, and speaks highly of his talents, his enterpize and extensive information.

Speculation in stocks received some slight check to-day, but prices do not seem to have changed materially since yesterday. The market was rather heavier, and one or two of the fancies fell off a shade, but this was recovered by a steady advance on others.

at the door of the Tabernacle.

EXHIBIT'ON OF THE "IVORY CHRIST,"

A T247 BROADWAY, N. Y.—This is the largest and most
beautiful ivory statue in the world. It was executed by a
monk in the Convent of St. Nicholas at Genoa, from a solan
nLock or rivort, three feet long by fourteen inches diameter,
and is pronounced by the highest authority to be without a
parallel zmong works of art.

Admittance 2) cents. Exhibition day and evening.
